2015 ETC Annual Report of Poka Lambro Telephone Cooperative, Inc.

Study Area Code 442131

Dear Ms. Dortch:

On behalf of Poka Lambro Telephone Cooperative, Inc. ("Poka Lambro"), JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules. Poka Lambro seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information. The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 of its Progress Report on its Five-Year Service Quality Improvement Plan as required by Section 54.313(a)(1).

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall JSI Vice President

Re: WC Docket No. 14-58

2015 ETC Annual Report of Poka Lambro Telephone Cooperative, Inc.

Study Area Code 442131 Request for Confidentiality

Dear Ms. Dortch:

John Staurulakis, Inc. ("JSI"), on behalf of its client Poka Lambro Telephone Cooperative, Inc. ("Company") hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission's rules, withholding from public inspection certain information contained in an attachment to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).²

- 1. The information for which the Company is seeking confidential treatment is an attachment to the Company's annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission's rules ("Report").³
- 2. Pursuant to Section 54.313(a)(1), Rate-of-Return Eligible Telecommunications Carriers ("ETCs") must file with the Commission a Progress Report on its Five-Year Service Quality Improvement Plan ("Progress Report") which is contained in the attachment to the 2015 Report.⁴
- 3. The information contained in attachment for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment. Information of this nature is confidential commercial information routinely withheld from public inspection.

¹ 47 C.F.R. §§ 0.457, 0.459.

² 47 C.F.R. § 0.459(b)(1) through (9).

³ 47 C.F.R. §§ 54.313, 54.422.

⁴ 47 C.F.R. §§ 54.313(a)(1).

4. With respect to identifying the degree to which the subject attachment concerns a service that is subject to competition, the information is of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment contains competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its March 5, 2013 Order, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories." The Company's Progress Report updates this information as well as provides maps and detailed information as to whether or not network improvement objectives were achieved at the wire center level. Accordingly, because the Company is a rate-of-return carrier, it must file Progress Reports which contain proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

5. With respect to identifying possible exposure to competitive harm, the information contained in the Line 112 attachment is information that is not customarily released to the public. This information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.

⁵ See Connect America Fund et al., WC Docket 10-90 et al., Order, DA 13-332 (rel. Mar. 5, 2013) ("March 5, 2013 Order") at para 9 citing Section 54.202(a) (1) (ii).

- disclosure of the information contained in the attachment, the Company is filing the attachment under seal. The Company uses the information contained in the Five-Year Plan to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.
- 7. Any previous versions of this information are not publicly available.
- 8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
- 9. Not applicable.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall JSI Vice President

Response to Line 510 - Service Quality Standards and Consumer Protection Rules

Compliance - Voice and Broadband

In establishing this certification in its 2005 ETC Order, the FCC found that an ETC must

make "a specific commitment to objective measures to protect consumers." ² The FCC found that

for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy

this requirement and that the sufficiency of other commitments would be considered on a case-by-

case basis.³ In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is

subject to consumer protection obligations under state law, compliance with such laws may meet

our requirement."4

Poka Lambro Telephone Cooperative, Inc. ("Cooperative") hereby certifies that its voice

service complies with applicable service quality standards and consumer protection rules under

the Texas Administrative Code, Title 16, Part II, as established by the Public Utility Commission

of Texas. These obligations include, but are not limited to, the following: (1) filing a Local

Exchange Tariff which discloses rates, terms and conditions of service to customers pursuant to

Subchapter J requirements in Sections 26.201-26.230; (2) adherence to state consumer protection

¹ Federal-State Joint Board on Universal Service, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").

² *Id.* at para. 28.

³ Id. The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: "(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy." Id. at n. 71.

requirements governing telephone providers as identified in Subchapter B, in Sections 26.21 - 26.37; and (3) service quality standards requirements as identified in Subchapter C, Sections 26.51 - 26.57. In addition, the Cooperative complies with numerous federal consumer protection standards including, but not limited to: (1) Truth-in-Billing Rules outlined in 47 CFR § 64.2401; and (2) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

For its broadband service, Cooperative hereby certifies that while there are no applicable state broadband service quality standards and consumer protection rules yet established under the Texas Administrative Code by the Public Utility Commission of Texas, the Cooperative discloses rates, terms and conditions on its public web site and the Cooperative complies with applicable federal and state customer protection standards generally applicable to all businesses operating in Texas. In addition, the Cooperative adheres to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the 2015 Open Internet Order when it becomes effective.

Response to Line 610 - Ability to Function in Emergency Situations

for Voice and Broadband

Poka Lambro Telephone Cooperative, Inc. ("Cooperative") hereby certifies that it is able

to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part

54, Subpart C, §54.202(a)(2)¹ and the Texas Administrative Code. The Cooperative's network is

designed to remain functional in emergency situations without an external power source, is able to

reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from

emergency situations as required by Section 54.202(a)(2). The Cooperative can change call

routing translations as needed to reroute traffic around damaged facilities. Changing call routing

translations also allows the Cooperative to manage traffic spikes throughout its network, as

emergency situations require.

Specifically, the Cooperative is able to function under emergency operations in accordance

with Public Utility Commission of Texas Substantive Rules §26.51 Reliability of Operations of

Telecommunications Providers and §26.52 Emergency Operations which include obligations for

continuity of service and emergency operations planning and service provision capability for

dominant carriers. Any central office not equipped with permanently installed standby generators

contains as a minimum four hours of battery reserve without voltage falling below the level

required for proper operation of all equipment. In addition, all central offices without installed

Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

emergency power facilities have a mobile power unit available which can be delivered and connected on short notice.

The Cooperative's standby generators and battery back-up equipment support both voice and broadband network equipment in the event of an emergency situation.

III. LIFELINE SERVICE

A. General

- 1. Lifeline Service is a retail local service offering sponsored by the FCC and available to qualifying low-income consumers.
- 2. Consumers qualifying for Lifeline Service are offered the services or functionalities enumerated in 47 Code of Federal Regulations §54.101(a) (relating to Supported Services for Rural, Insular and High Cost Areas).
- 3. The Cooperative shall offer toll restriction at no charge to all qualifying low-income consumers at the time such consumers subscribe to Lifeline Service. If the consumer elects to receive toll restriction, that service shall become part of the consumer's Lifeline Service.
- 4. A customer otherwise eligible to receive the Lifeline Service shall not be prohibited from obtaining and using telecommunication equipment and services designed to aid such customer in utilizing qualifying telecommunication services.
- 5. Lifeline Service rate reductions only apply to basic service and do not apply to non-basic service such as long distance service, 976 and other information provider services, which may or may not be tariffed. Customers may subscribe to such services including bundled service, where available, however, the Lifeline Service reduction only applies to the basic service charge for bundled service.
- 6. The Lifeline Service rate reductions do not apply to service connection charges. Customers who are residents of Tribal Lands may be eligible for the federal program Link Up support concerning service connection charges.
- 7. Lifeline Service will not be available on a retroactive basis except where directed by the Low Income Discount Administrator (LIDA) or the Commission.
- 8. The Cooperative shall waive monthly number portability charge, subject to its tariff, for Lifeline customers.

III. LIFELINE SERVICE (Continued)

B. Eligibility Requirements

- 1. The discounted service will be provided for one (1) residential telephone line per household, at the subscriber's principal place of residence.
- 2. The applicant must certify that their annual household income is at or below 150% of the annual federal poverty guidelines, be an eligible resident of Tribal lands, or participate in, or have a person or child who resides in the customer household who participates in, a program identified in Chapter 47 of the Code of Federal Regulations § 54.409 and in P.U.C. Substantive Rule 26.412 regarding consumer qualification for Lifeline.

3. Procedures for Establishing Lifeline Discounts

- (a) Consumers within the Cooperative's service area identified as eligible for eligible for Lifeline Service by the LIDA through the automatic enrollment process under Commission Substantive Rule 26.412 shall be provided Lifeline Service discounts unless the Cooperative receives a customer request to be excluded from such discounts. Consumers who are eligible for Lifeline Service but do not have telephone service at the time the LIDA provides its eligibility list to the Cooperative are responsible for contacting the Cooperative and initiating a request for Link-Up Service from the Cooperative.
- (b) The LIDA shall provide the Cooperative with a monthly list of consumers eligible for Lifeline Service.

III. LIFELINE SERVICE (Continued)

- **B.** Eligibility Requirements (Continued)
 - 3. Procedures for Establishing Lifeline Discounts (Continued)
- (c) Consumers who do not participate in one of the designated programs but who meet annual income qualifications by having a household income at or below 150% of the federal poverty guidelines, may establish eligibility for Lifeline Service by contacting the LIDA.

(d) The discontinuance of the Tel-Assistance program effective September 1, 2001 allows the Cooperative to move Tel-Assistance customers to Lifeline Service. The Cooperative has no exchanges where a customer's local service rate under Tel-Assistance is a greater benefit; therefore, customers will be grandfathered at Lifeline rates. Rates will apply until the customer's service is discontinued or the customer is determined ineligible under this Section.

4. Provision of Service

- (a) The Cooperative shall provide Lifeline Service to all eligible consumers identified by the LIDA within its service area where the consumer is a customer of the Cooperative. Within 30 days after receipt of the list or receipt of customer affidavit, the Cooperative shall begin reduced billing for those eligible low-income consumers subscribing to qualifying services.
- (b) If the eligible consumer changes the telephone service to qualifying services or initiates new qualifying service, the Cooperative shall begin reduced billing at the time the change of service becomes effective or at the time the new service is established.
